

## FRENCH FLAIR

Taking her cues from this home's charming French cottage feel, Wendy Black Rodgers embellished the front door with a wreath and a garland of fresh magnolias, dried lavender and dried hydrangea blossoms, accented with lights and a combination of burlap and silky blue ribbons for textural contrast. Colors were kept in a blue/green palette to complement the trim on the house. The beribboned packages, giant gold angel wings over the door, and gold angels in the wreath add elegance, while the stuffed bear perched on a sleigh lends a playful touch.
